Shadow University

Unleash the Comprehensive Functionality of Shadow Financial Systems' Products Through Shadow University

Shadow University offers advanced training to help new and experienced users maximize their experience with ShadowSuite®, ShadowMargin™ and ShadowConnect™. Through Shadow University's personalized curriculum, learn the comprehensive functionality of the products and the features and functions that address your most pressing business challenges.

Featuring an interactive educational experience, Shadow University teaches tips, techniques and tactics that can increase efficiency and save your organization time and money. Attendees will learn how to better utilize ShadowSuite, ShadowMargin and ShadowConnect through training, discussions, reviewing real-world scenarios and hands-on labs, empowering users to further automate processes that had previously been done manually.

SHADOW UNIVERSITY PROVIDES:

USER TRAINING: Shadow University provides new and experienced users with powerful information and user insight to optimize their experience with ShadowSuite, ShadowMargin and ShadowConnect. While all Shadow Financial Systems' clients receive initial training, Shadow University takes a deeper dive into the full capabilities of the system, ensuring users get the most value from their technology investment.

ADVANCED TRAINING: New and experienced users will benefit through increased proficiency with ShadowSuite, ShadowMargin and ShadowConnect.

EXPLORE EXPANSIVE FUNCTIONALITY: Go beyond business basics and uncover the advanced capabilities of ShadowSuite's industry-leading post-trade processing, reconciliation, clearance, settlement, treasury and accounting solution or ShadowMargin's strategy-based processing or ShadowConnect's scripting capabilities.

PERSONALIZED CONTENT: Classes are delivered on-site and course curriculum is designed to focus on your organization's specific business practices.

COMPELLING CURRICULUM: Experienced instructors share their knowledge on topics such as ShadowSuite Business Utilization, Accounting, Asset Master Configuration and Trade Processing or ShadowMargin calls, optimization and reporting or ShadowConnect specific interfaces and scripting tools.

POWER USER PROFICIENCY: Armed with detailed education on the products, users can further enhance the trade process and resolve issues on their own.

FURTHER AUTOMATE MANUAL PROCESSES: Tap into the advanced capabilities of the products and fully access applicable functionalities to further streamline processes that had previously been done manually.

OPTIMIZE TECHNOLOGY INVESTMENT: Through a deeper understanding of the products functionality, organizations are able to maximize the return on their technology investment and ensure users tap into the full capabilities of the solution.
